Pipeline for high-volume requests
Outreach to disability beneficiaries brings us more than 1000 registrations a month. At any time we have 600 — 800 qualified agents ready to work. We can meet your low and high-volume requests quickly, with the right people.

Energetic phone presence
Most NTI agents prefer part-time work. Shorter shifts make for an energetic, fresh-sounding agent. Customers will notice your operators aren't just knowledgeable—they're pleasant to talk to.

We sent Amazon 50 applicants, they hired 48.

When you need talent, we:

Understand the need. A veteran Project Coordinator takes time to grasp just what your position requires.

Search. We reach out to our screened and trained graduates to alert them to your opportunity.

Evaluate. Our staff interviews each interested applicant to confirm they meet your requirements.

Present the Best. We forward just the finalists. If you need assessments or more interviews scheduled, we'll do that too.

Follow-up. Onboarding can include a Pre-Flight Check of each home office. We can test computer, headset, and software so each new agent is productive Day One.
